

## **It's a Jungle Up There classroom activities**

For use with "It's a Jungle Up There" ASK, July/August 2013, pages 24-27

### **Classroom discussion questions**

What is a green roof?

What is a living wall?

Can a roof be "greened" simply by adding soil and plants? Why not?

What layers are found in a green roof or living wall?

What kinds of plants do well in them? Why?

How do green roofs and living walls help wildlife?

How do they help people?

### **Activity**

Research green roofs in your area. What kind of climate must the plants deal with?

Can you arrange a field trip to visit it?
